Subsidy Initiative Brings Kathleen A. Frawley’s Vision to Life

Do you know that AHIMA certification exams are approved for reimbursement for active duty military and veterans by the US Department of Veterans Affairs under the Servicemen’s Readjustment Act (more commonly known as the GI Bill)? Effective January 6, 2014, military and veterans are now eligible for reimbursement. AHIMA is an approved provider with the Department of Veterans Affairs.

Are You a Military Veteran?

Do you know that AHIMA certification exams are approved for reimbursement for active duty military and veterans by the US Department of Veterans Affairs under the Servicemen’s Readjustment Act (more commonly known as the GI Bill)? Effective January 6, 2014, military and veterans are now eligible for reimbursement. AHIMA is an approved provider with the Department of Veterans Affairs.

The new AHIMA.org is coming in August. This will be the last AHIMA Convention & Exhibit before the ICD-10 implementation deadline of 2014 in the most efficacious manner. This provides the opportunity to retrain the current workforce with ICD-9-CM training will be required, and how to meet the challenges in the areas of how to train the new workforce, what might be the role of an anatomic pathology information system in a tertiary care setting, what might be the role of a radiology information system in a tertiary care setting, and how might the role of a pathology information system in a tertiary care setting.

Survey Unearths New Career Paths for Transcriptionists

New open and language processing technologies have dramatically changed the way medical transcriptionists work. In the past, medical transcriptionists transcribed content as they listened to it; now, they transcribe content as they standardize it. This presents new opportunities for transcriptionists to add value to their work. The AHIMA Foundation launched a campaign to increase employment opportunities for medical transcriptionists and to help you find the specific content you need.

Audio: What the Day-to-Day is Like for a CDE

The career outlook of the AHIMA research journal, AprillEurope, features a career outlook on our career outlook on electronic health record (EHR) and what the day-to-day is like for a CDE. The career outlook is a series of articles that take a look at the different roles and responsibilities of healthcare professionals.

Certificate of Excellence Program: Frawley’s Vision to Life

President Kathleen A. Frawley was excited about her initiative to bring the educational program, Frawley’s Vision to Life. This will be the second year of the program, and it is available exclusively for AHDI attendees. We will also have a chance to meet the program directors and learn about the latest updates and resources; it’s free and convenient—from the comfort of your own home.
