The Collaborative Model

Core Principles (Nationally Aligned):
- Quality Patient Care & Timely Access
- Disaster Recovery & Business Continuity
- Managing Costs & Coverage
- Privacy & Security

Collaborative Activities (Local & Regional):
- Education & Outreach: Providing Resources for Patients, Providers, and Health IT Users
- Broadband Infrastructure: Creating Reliable Broadband Networks and Connectivity
- Health IT Adoption & Support: Enabling Operations through Training/Implementation
- Health Information Exchange: Facilitating Secure HIE Locally and Statewide
- Quality Improvement & Research: Using Informatics and Reporting to Improve Patient Safety
- Economic Development & Job Creation: Supporting Growth in the Healthcare Sector
